Introduction

Computers have been allotted an integral role to play and are changing the way lives are lived. They can be seen being used in all kinds of sectors and businesses. Keeping in view the above University Institute of Information Technology (UIIT) was established in 2001 to address this terrible need. Although computers are bringing the evolution of technology, it cannot be denied that there are areas where the impacts of the computer system are not fully recognized yet. The market needs committed professionals in IT and computer science. In developing countries like Pakistan, the use of computers will bring change in a big and astonishing way. It will lead to optimism, efficiency, productivity and high quality. UIIT is producing CS/IT graduates who are well versed to provide IT based solutions to the problems for all the sectors in general and for Agriculture sector in particular.

Master of Science in Computer Science MS (CS) is a 2 years (4 semesters) degree offered on-campus as a full-time and thesis (research) based program. This is a professional degree for students having Sixteen years of education who intend to pursue a technical career in the computer industry. The MS degree program is designed in a way that provides up-to-date technical knowledge; marketable skills, professional competencies and valuable expertise in the rapidly advancing field of computer science to ensure a prosperous future. The program requires the student to take a broad spectrum of courses, while simultaneously allowing for emphasis in desired areas of specialization.

The course contents is regularly revised and updated with the latest developments in the field of computer science. The recently emerging tools and technologies have been included in the syllabus. The institute provides a variety of specialization courses such as Software Engineering, Networks & Communication, Artificial intelligence/ Data Mining/Image processing/Computer Graphics and Database Systems to enhance student's professional training and career opportunities. It holds national seminars to exchange knowledge and information.

CRITERION 1: PROGRAM MISSION, OBJECTIVES AND OUTCOMES

The self assessment is based on a number of criteria. To meet each criterion several standards must be satisfied. This section describes how the standards of the Criterion are met.

Standard 1-1: The program must have documented measurable objectives that support institution mission statements.

Mission Statement:

The M.S. in Computer Science program is designed to provide computer science and information technology graduates, the opportunity to improve their training with advanced study in Computer Science. The degree focuses on scientific experimental design, data collection, data modeling and analysis and problem solving. The Software Engineering specialization focuses on providing best practices in managing large, diverse software development projects with a focus on software architecture and software project management. The computer networks specialization prepares students in the areas of computer communications, networks and distributed processing.

The main elements of strategic planning to achieve mission and objectives

The main elements which are present in the plan to achieve the mission and objective are listed below:

1. Expose our students to current research in computer science
2. Provide supportive environment for our MS students.
3. Instill a desire and ability for life-long learning in our students by (a) motivating students to engage in independent research and study, (b) providing opportunities for students to participate in computer science research activities, and (c) encouraging students to continue in doctoral programs.
4. Increase in research productivity
5. Partner with other programs in our university that demonstrate the role of computer science in Agriculture.
6. Formalization of Research Areas.

The assessment of program objectives through different criteria is presented in Table 1.

Table 1: Programs Objectives Assessment

S #	Objective	How Measured	When Measured	Improvement Identified	Improvement Made
1	Expose our students to current research in computer science	Through their research titles and submitted synopsis.	Regular process	Current research issues are not discussed.	The research seminar offerings
2	Provide supportive environment for our MS students.	In regular meetings with respective research supervisors.	Regular research meetings	Each student will have: (1) Dedicated space in the department, (2) Access to modern tools and equipment necessary for their research, and (3) A dedicated workstation for his/her own use.	(1) A dedicated lab is setup for MS students (2) Research supervisors help students on their individual basis, and students are encouraged to write research proposals for acquiring funding. (3) Students are getting benefit from Punjab Govt. Laptop scheme.
3	Instill a desire and ability for life-long learning in our students by (1) Motivating students to engage in independent research and study, (2) Providing opportunities for students to participate in computer science research activities, and (3) Encouraging students to continue in doctoral programs.	In comprehensive viva exam. Through their respective supervisors.	Regular process	Students have just the aim to have a higher degree without any further aim.	Research seminars and number of students following on to doctoral programs.

4	Increase in research productivity	The university is listed in top ranked universities.	Regularly measured the progress of MS students	Increase the research productivity, testbed, publications, and scholarly activities that have significance in the community	Encouraging students to write and submit research papers in HEC recognized journals
5	Partner with other programs in our university that demonstrate the role of computer science in Agriculture.	In local journals of agriculture no as such computer technology is found.		Lack of computer usage in Agriculture.	Communicating with other departments in the university to provide their scientific problems that can be solved through computer.

Program Learning Outcomes

At the successful completion of MSCS degree, the students will be equipped with the following

1. Formulate solutions to computing problems
2. Analyze and compare alternative solutions to computing problems
3. Work effectively in teams to design and implement solutions to computational problems
4. Communicate effectively, both orally and in writing
5. Think critically and creatively, both independently and with others
6. Identify, analyze, and synthesize scholarly literature relating to the field of computer science; and
7. Use software development tools, software systems, and modern computing platforms.

Standard 1-2: The program must have documented outcomes for graduating students. It must be documented that the outcomes support the program objectives and that graduating students are capable of performing these outcomes.

Table 2: Program Outcomes and Their Relationship with Objectives

		Objectives				
		1	2	3	4	5
Outcomes	1	+++	++	+++	++	++
	2	++	+++	+++	+	+++
	3	++	+	++	++	+++

Program Assessment Results

This section contains the Teacher Assessment and Student Course Evaluation in summarizing form.

Teacher Evaluation

There are around twenty faculty members in the institute, but not all of them are involved in teaching courses in MS program. The teachers who teach courses in the MSCS degree program, their summarized result is given in the below graph. Dr. Yasir Hafeez has scored 100%, Dr. Saleem Iqbal has scored 100%, Dr. M. Azeem Abbas has scored 100% and Dr. Saud Altaf has scored 100%. Dr. Javaid Iqbal has scored 85%. The comparison of their score is given below.

Figure 1.1: Teacher Evaluation Graph

Dr. Yaser Hafeez (SQA)

In Figure 1.2, the graph for “The Instructor provided course split schedule during the 1st week of semester” shows that 100% are strongly agreed. The graph for “The assignments and exam covered the materials presented in the course” shows that 100% are strongly agreed. The graph for “The course integrates theoretical course concepts with real-world applications” shows that 100% are strongly agreed,. The graph for “The course material is modern and updated” shows that 100% are strongly agreed. The graph for “The instructor arrives on time” shows that 100% are strongly agreed. The graph for “The instructor communicates the subject matter effectively.” shows that 100% are strongly agreed.

General Comments of the Students about this Course

Strengths:

- The objectives were clear.
- Student actively participated in the course.

Figure 1.2: Teacher Evaluation Graph of Dr. Yaser Hafeez

* The labels represents the scale: A= Strongly Agree; B= Agree; C= Neutral; D= Disagree; E= Strongly Disagree

Dr. Saleem Iqbal (AOS)

In Figure 1.3, the graph for “The Instructor provided course split schedule during the 1st week of semester” shows that 100% are agreed. The graph for “The assignments and exam covered the materials presented in the course” shows that 100% are agreed. The graph for “The course integrates theoretical course concepts with real-world applications” shows that 100% are agreed. The graph for “The course material is modern and updated” shows that 100% are strongly agreed. The graph for “The instructor arrives on time” shows that 100% are strongly agreed. The graph for “The instructor communicates the subject matter effectively.” shows that 100% are agreed.

General Comments of the Students about this Course

Strengths:

- The objectives were clear.
- The material in the tutorials was useful.

Figure 1.3: Teacher Evaluation Graph of Dr. Saleem Iqbal

* The labels represents the scale: A= Strongly Agree; B= Agree; C= Neutral; D= Disagree; E= Strongly Disagree

Dr. Muhammad Azeem Abbas (ARM)

In Figure 1.4, the graph for “The Instructor provided course split schedule during the 1st week of semester” shows that 65% are strongly agreed, 35% are agreed. The graph for “The assignments and exam covered the materials presented in the course” shows that 65% are strongly agreed, 35% are agreed. The graph for “The course integrates theoretical course concepts with real-world applications” shows that 65% are strongly agreed, 35% agree. The graph for “The course material is modern and updated” shows that shows that 65% are strongly agreed, 35% agree. The graph for “The instructor arrives on time” shows that 65% are strongly agreed, 35% agree. The graph for “The instructor communicates the subject matter effectively.” shows that 100% are strongly agreed.

General Comments of the Students about this Course

Strengths:

- Course Workload was manageable.
- Students have made good progress in this course.

Weaknesses:

- Learning resources on web was not appropriate and adequate
- Class rooms were not satisfactory.

Figure 1.4: Teacher Evaluation Graph of Dr. Muhammad Azeem Abbas

* The labels represents the scale: A= Strongly Agree; B= Agree; C= Neutral; D= Disagree; E= Strongly Disagree

Dr. Saud Altaf (WN)

In Figure 1.5, the graph for “The Instructor provided course split schedule during the 1st week of semester” shows that 100% are strongly agreed. The graph for “The assignments and exam covered the materials presented in the course” shows that 100% are strongly agree. The graph for “The course integrates theoretical course concepts with real-world applications” shows that 100% are strongly agreed. The graph for “The course material is modern and updated” shows that 100% are strongly agreed. The graph for “The instructor arrives on time” shows that 100% are strongly agreed. The graph for “The instructor communicates the subject matter effectively.” shows that 100% are strongly agreed.

General Comments of the Students about this Course

Strengths:

- The objectives were clear.
- The material in the tutorials was useful.

Figure 1.5: Teacher Evaluation Graph of Dr. Saud Altaf

* The labels represents the scale: A= Strongly Agree; B= Agree; C= Neutral; D= Disagree; E= Strongly Disagree

Dr. Javaid Iqbal (DM)

In Figure 1.6, the graph for “The Instructor provided course split schedule during the 1st week of semester” shows that 100% are strongly agreed. The graph for “The assignments and exam covered the materials presented in the course” shows that 100% are strongly agree. The graph for “The course integrates theoretical course concepts with real-world applications” shows that 100% are strongly agreed. The graph for “The course material is modern and updated” shows that 100% are strongly agreed. The graph for “The instructor arrives on time” shows that 100% are strongly agreed. The graph for “The instructor communicates the subject matter effectively.” shows that 100% are strongly agreed.

General Comments of the Students about this Course

Strengths:

- The objectives were clear.
- The material in the tutorials was useful.

Figure 1.6: Teacher Evaluation Graph of Dr. Javaid Iqbal

* The labels represents the scale: A= Strongly Agree; B= Agree; C= Neutral; D= Disagree; E= Strongly Disagree

Student Course Evaluation

The courses of the respective teachers were also evaluated as per Performa 1 (Annexure-1) and the results are shown in Fig-2. The Software Quality Assurance has score 87%, Advanced Operating Systems has score 100%, the Adv. Research Methods has score 100%, Wireless Networks has scored 100%, Data Mining scored 84%, Information Retrieval 88%, Special Topics in CS 92% and Network Security has scored 89%.

Figure 2: Student Course Evaluation Graph

Software Quality Assurance (Dr. Yaser Hafeez)

In Figure 2.1, the graph for “level of your own attendance during the whole course” shows that 100% are agreed on that. The graph for “Class rooms were Satisfactory” shows that 100% are uncertain on it. The graph for “Feedback on assessment was helpful” shows that 0% are strongly agreed, 0% are agreed and 100% are uncertain. The graph for “Course Feedback on assessment were timely” shows that 100% are strongly agreed. The graph for “Had the instructor been regular throughout the course?” shows that 100% are strongly agreed. The graph for “I participated actively in the course” shows that 100% are agreed.

General Comments of the Students about this Course

Strengths:

- The objectives were clear.
- Student actively participated in the course.

Weaknesses:

- The students were uncertain about classroom and the course structure

Figure 2.1: Course Evaluation Graph of Software Quality Assurance

* The labels represents the scale: A= Strongly Agree; B= Agree; C= Neutral; D= Disagree; E= Strongly Disagree

Advanced Operating System (Dr. Saleem Iqbal)

In Figure 2.2, the graph for “level of your own attendance during the whole course” shows that 100% are agreed. The graph for “Class rooms were Satisfactory” shows that 100% are agreed. The graph for “Feedback on assessment was helpful” shows that 100% are strongly agreed. The graph for “Course Feedback on assessment were timely” shows that 100% are agreed. The graph for “Had the instructor been regular throughout the course?” shows that 100% are agreed. The graph for “ I practiced actively in the course” shows that 100% are agreed.

General Comments of the Students about this Course

Strengths:

- The objectives were clear.
- The material in the tutorials was useful.

Weaknesses:

- Feedbacks over assessments were not helpful.
- The level of attendance was just satisfactory.

Figure 2.2: Course Evaluation Graph of Advanced Operating System

* The labels represents the scale: A= Strongly Agree; B= Agree; C= Neutral; D= Disagree; E= Strongly Disagree

Advanced Research Methodology (Dr. Muhammad Azeem Abbas)

In Figure 2.3, the graph for “level of your own attendance during the whole course” shows that 65% are strongly agreed, 35% are agreed. The graph for “Class rooms were Satisfactory” shows that 65% are strongly agreed, 35% are agreed. The graph for “Feedback on assessment was helpful” shows that 35% are strongly agreed, 65% are agreed. The graph for “Course Feedback on assessment were timely” shows that 65% are strongly agreed, 35% are agreed. The graph for “Had the instructor been regular throughout the course?” shows that 100% are strongly agreed. The graph for “I participated actively in the course” shows that 100% are strongly agreed.

General Comments of the Students about this Course

Strengths:

- Course Workload was manageable.
- Students have made good progress in this course.

Weaknesses:

- Learning resources on web was not appropriate and adequate
- Feedback on assessment was not quit helpful

Figure 2.3: Course Evaluation Graph of Software Engineering Processes

* The labels represents the scale: A= Strongly Agree; B= Agree; C= Neutral; D= Disagree; E= Strongly Disagree

Wireless Networks (Dr. Saud Altaf)

In Figure 2.4, the graph for “level of your own attendance during the whole course” shows that 100% are strongly agreed. The graph for “Class rooms were Satisfactory” shows that 100% are strongly agreed. The graph for “Feedback on assessment was helpful” shows that 100% are strongly agreed. The graph for “Course Feedback on assessment were timely” shows that 100% are strongly agreed. The graph for “Had the instructor been regular throughout the course?” shows that 100% are strongly agreed. The graph for “I participated actively in the course” shows that 100% are strongly agreed.

General Comments of the Students about this Course

Strengths:

- The objectives were clear.
- The material in the tutorials was useful.

Figure 2.4: Course Evaluation Graph of Wireless Networks

* The labels represents the scale: A= Strongly Agree; B= Agree; C= Neutral; D= Disagree; E= Strongly Disagree

Data Mining (Dr. Javaid Iqbal)

In Figure 2.5, the graph for “level of your own attendance during the whole course” shows that 100% are strongly agreed. The graph for “Class rooms were Satisfactory” shows that 100% are strongly agreed. The graph for “Feedback on assessment was helpful” shows that 100% are strongly agreed. The graph for “Course Feedback on assessment were timely” shows that 100% are strongly agreed. The graph for “Had the instructor been regular throughout the course?” shows that 100% are strongly agreed. The graph for “I participated actively in the course” shows that 100% are strongly agreed.

General Comments of the Students about this Course

Strengths:

- The objectives were clear.
- The material in the tutorials was useful.

Weakness:

- Students were not punctual

Figure 2.5: Course Evaluation Graph of Wireless Networks

* The labels represents the scale: A= Strongly Agree; B= Agree; C= Neutral; D= Disagree

Information Retrieval (Dr. Azeem Abbas)

In Figure 2.6, the graph for “level of your own attendance during the whole course” shows that 100% are strongly disagreed. The graph for “Class rooms were Satisfactory” shows that 100% are agreed. The graph for “Feedback on assessment was helpful” shows that 100% are strongly agreed. The graph for “Course Feedback on assessment were timely” shows that 100% are strongly agreed. The graph for “Had the instructor been regular throughout the course?” shows that 100% are strongly agreed. The graph for “I participated actively in the course” shows that 100% are strongly agreed.

General Comments of the Students about this Course

Strengths:

- The objectives were clear.
- The material in the tutorials was useful.

Weakness:

- Students were not punctual

Figure 2.6: Course Evaluation Graph of Wireless Networks

* The labels represent the scale: A= Strongly Agree; B= Agree; C= Neutral; D= Disagree

Special Topics in AI (Dr. Yaser Hafeez)

In Figure 2.7, the graph for “level of your own attendance during the whole course” shows that 100% are strongly agreed. The graph for “Class rooms were Satisfactory” shows that 100% are strongly agreed. The graph for “Feedback on assessment was helpful” shows that 100% are strongly agreed. The graph for “Course Feedback on assessment were timely” shows that 100% are strongly agreed. The graph for “Had the instructor been regular throughout the course?” shows that 100% are strongly agreed. The graph for “I participated actively in the course” shows that 100% are strongly agreed.

General Comments of the Students about this Course

Strengths:

- The objectives were clear.
- The material in the tutorials was useful.

Figure 2.7: Course Evaluation Graph of Wireless Networks

* The labels represent the scale: A= Strongly Agree; B= Agree; C= Neutral; D= Disagree

Network Security (Dr. Saleem Iqbal)

In Figure 2.8, the graph for “level of your own attendance during the whole course” shows that 100% are strongly agreed. The graph for “Class rooms were Satisfactory” shows that 100% are strongly agreed. The graph for “Feedback on assessment was helpful” shows that 100% are strongly agreed. The graph for “Course Feedback on assessment were timely” shows that 100% are strongly agreed. The graph for “Had the instructor been regular throughout the course?” shows that 100% are strongly agreed. The graph for “I participated actively in the course” shows that 100% are strongly agreed.

General Comments of the Students about this Course

Strengths:

- The objectives were clear.
- The material in the tutorials was useful.

Figure 2.8: Course Evaluation Graph of Wireless Networks

* The labels represent the scale: A= Strongly Agree; B= Agree; C= Neutral; D= Disagree

Alumni Survey Results

The students after MSCS usually join organizations like software house, telecom companies, school, colleges and few adopted higher education and then came toward the research field. So Performa 7 was sent to the organizations and feedback was collected.

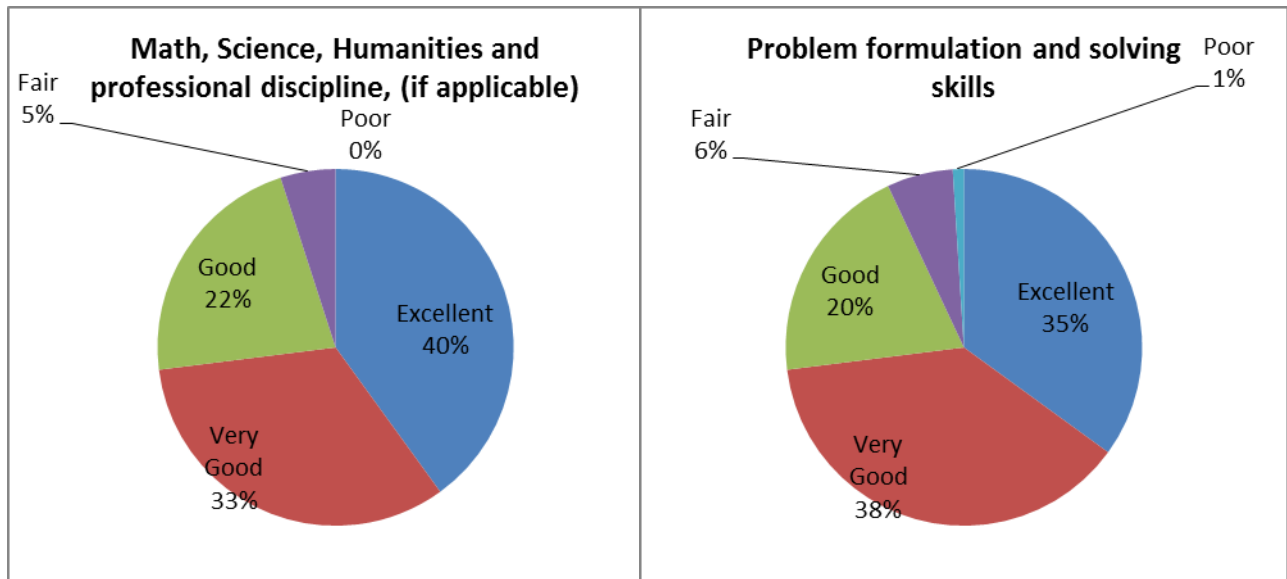

Figure 3: Result of Alumni Survey

Figure 4: Knowledge

Figure 5: Communication Skills

Figure 6: Interpersonal Skills

Figure 7: Management and Leadership Skills

Figure 8: Department Status

Skills of Students as MSCS graduates

The students are capable to work in any software house and telecom industry, educational and research institution because they have the latest knowledge and ability to work with advanced tools and

techniques. The students have also the knowledge to conduct research in any field of computer science and to teach in any academic institute as well.

Survey of Graduating Students

A survey is conducted for the students of last semester and feedback is collected on Performa 3. The results are summarized. A set of questions is present in the Performa 3.

Figure 9: Survey of Graduating Students

Best Aspects of the Program:

- Qualified faculty
- The students have the ability to work with lots of pressure
- Introduction to the new technologies, tools and equipments
- The environment is conducive to learning

Weaknesses:

- Not sufficient number of regular faculty members therefore, the institute is dependent on visiting faculty
- Field specific state-of-art labs are required.

Standard 1-3: The results of the program's assessment and the extent to which they are used to improve the program must be documented.

Strengths of Program/Institute

The course curriculum is well designed. The institute has hired new qualified faculty members to meet the needs of the students. The students are able to work within the teams. The environment is conducive for learning that's why there is an introduction of advanced technologies along with their tools and equipments to the students

Weakness of Program/Institute

The weaknesses in the program are that there should be less dependence on the visiting faculty. The course curriculum is designed very well, but still it needs to be updated in terms of specialization. More time should be given to the students for practical work independently of the timetable so that they can learn and implement the expressions easily. There should be some appropriate sitting place in the campus for students. Similarly, the concept of specialized lab should be introduced.

Standard 1-4: The institute must assess its overall performance periodically using quantifiable measures.

As the MSCS program is a research oriented program, in recent past, the students along with the faculty have published their research papers in the leading research Conferences and Journals. The detail is present in the faculty resume.

Community Service provided by the institutes:

Although right now there is no such mechanism to provide technical support to the local community but UIIT faculty was actively involved in establishing the lab in schools in remote areas under the Chief Minister Punjab program.

The institute has a plan to establish a wing which will provide support to different organization which is helping local community free of cost.

Table 3: Performance measures for research activities

Sr. No.	Faculty	Publications in Journals	Publications in proceedings/abstracts	Research Projects

Future Plans

The Management of UIIT has planned a number of research studies and practical work in future that deal with the issues of computer science and information technology as according to the requirement of HEC.

Table 4: Quantitative assessment of the department

Sr. #	Particular	No.	Remarks
i	MS (CS) degree awarded	270	Since 2009
ii	Ph.D. degree awarded	-	--
iii	Post-Doc fellowship	-	--
iv	Students: Faculty ratio	1:14	
V	Technical: Non-technical Ratio	-	Fulfil HEC criteria

Employer Survey

A survey has been conducted and feedback has been collected on Performa 8 from the employees where students have MSCS degree from UIIT are working. The results are summarized in the figure given below.

Figure 10: Employee Survey for Determining the Student's Skill Level

The graph shows the employees view regarding the students. The 81% students have enough knowledge regarding their field. The 78% have communication skills to communicate with the people of their own field. The 77% students have Interpersonal skills and 79% students have work skills related to the field. All the employees were of the view that the students have potential and they can be more productive.

CRITERION 2: CURRICULUM DESIGN AND ORGANIZATION

Degree Title: MSCS Master of Science in Computer Science

Intent:

All the courses for degree program are developed by a committee constituted by the Higher Education Commission, Pakistan. The committee consists of experts and learned professors, subject matter specialists from other universities and research organizations from Pakistan. When and if needed, curriculum for the University Institute of Information Technology is revised/updated through different bodies. At institutional level, Board of Studies, which comprised of senior faculty members, is responsible for updating the curriculum. This body is authorized to formulate a syllabus and course content. The Director of UIIT is the convener of this body. As per university rules courses after the approval from the UIIT Board, are placed before the University Academic Council for their approval.

Definition of Credit Hour

A student must complete a definite number of credit hours. One credit hour is one theory lecture or two hours laboratory (practical/week). One credit hour carries 20 marks.

Degree plan

Presently Six degree programs are organized by the University Institute of Information Technology. The MSCS degree program consists of 2 academic years/ 4 semesters.

Standard 2-1: The curriculum must be consistent and support the program's documented objectives.

The table given below shows the list of courses those are consistent with the programs objectives.

Assessment of MSCS Curriculum

The assessment of the MSCS degree program is shown in tabulated form which indicated that contribution of each course for the program outcomes.

- It contains the Core Computer Science course, Computer Science Education and General Computer Science Electives.
- It contains specialization courses which help in getting expertise in specific fields of computer science.

Standard 2-2: Theoretical backgrounds, problem analysis and solution design must be stressed within the program's core material.

Table 5: Courses versus Outcomes

Courses			Outcomes					
			1	2	3	4	5	6
Core		CS-718, CS-719, CS-721, CS-794, CS-797, CS-720	+++	+++	+++	+++	+++	+++

+++

Standard 2-3: The curriculum must satisfy the core requirements for the program, as specified by the respective accreditation body.

The curriculum is designed according to the requirements of the HEC and is duly approved by the Academic Council of PMAS-AAUR.

Standard 2-4: The curriculum must satisfy the major requirements for the program, as specified by HEC, the respective accreditation body / councils. the respective accreditation body.

The institute has its own faculty board comprising of ten members, one member from sister institutes, two members from the academic council of PMAS-AAUR and seven members from faculty of UIIT. All courses of MSCS degree are designed according to the defined standard of HEC by the said faculty board and curriculum is duly approved by the academic council of the university.

Standard 2-5: The curriculum must satisfy general education, arts, professional and other discipline requirements for the program, as specified by the respective accreditation body / councils.

The course distribution in the curriculum of MSCS is according to the requirements of HEC.

Standard 2-6: Information technology component of the curriculum must be integrated throughout the program.

The degree of MSCS is a computer science professional degree. The extensive programming and application courses are included in the degree. It includes major Computer Science, Software Engineering, Computer Networks, Data Mining and Artificial Intelligence courses.

Table 2.4: Credit Hour Division between major areas

Category	Credit Hours - Thesis Program	Credit Hours Thesis Program
MSCS Specialization Courses	15	15
Seminars	-	1
Core Course	9	9
Research Thesis	10	9 (3 Courses)
Total Credit Hours	34	34

Standard 2-7: Oral and Written communication skills of the student must be developed and applied in the program.

To enhance the communication skills of students, UIIT ensures Presentations in all their courses, seminars and thesis.

CRITERION 3: LABORATORIES AND COMPUTING FACILITIES

Standard-3.1: Laboratory manuals/documentation/instructions for experiments must be available and daily accessible to faculty and students.

Laboratory manuals for the entire practical subject are prepared and distributed among students. Manuals are present at the institute in the soft form.

Standard-3.2: There must be support personal for instruction and maintaining the laboratories.

There are enough number of people to support students and maintaining the laboratories. Detail is given below:

Computer Lab support staff:	10
Multimedia Projector Count:	0
Over Head Projectors Count:	20
Total Lab Computers:	180
Total No. of Labs:	8

E-learning Facility: Video Conferencing, Digital Library

Standard-3.3: The University computing infrastructure and facilities must be adequate to support program's objectives.

The UIIT provides enough computing facilities for students in the Lab. The total numbers of computers available for students use in multiple labs are 180 in 8 labs.

A student to computer ratio maintained in the year 2016-2018 is 4:1. The detailed information is presented in table 6.

Table 6: Laboratory Facility

Size of campus (in kanals)	9.3 kanals								
Covered area (sq ft)	51,165 sq ft								
Sizes of lecture rooms	Class Room 30’ x 40’					Lecture Theater 30’ x 50’			
Instructional facilities provided in lecture rooms	Multimedia White Board					Overhead Projectors Sound System			
General computing lab facilities: total number of PCs and lab hours	Approximately 100 hours Per Day Total PCs in Labs: 210 Labs Open: 8:00 am – 8:20 pm								
Nature and level of networking	Fiber Optic based Campus Wide LAN, Point to Point connectivity using fiber optic with 155MB of bandwidth.								
Specialized lab facilities and hours of their availability	CISCO (Router/Switch) GIS (Plotter/Scanner) DLD(Trainer/Oscillosc ope), MS Lab (1)			Linux Lab Teaching Lab Project Lab The labs are open almost the whole day from 8:00 am to 8:20 pm					
Student-to-computer ratio	2009-10	2010-11	2011-12	2012-13	2013-14	2014-15	2015-16	2016-17	2017-18
	1.3:1 383:285	1.2:1 390:285	2:1 410:285	2:1 410:285	3:1 457:156	3.5:1 700:170	4:1 800:210	4:1 800:210	4:1 800:210
Avg lifetime of PC in computing labs	3 to 4 years								
Library information	Area (sq ft)	Automated	Total Books	Total Computer Books		Total Journals		IEEE ACM	
	1020	Yes	3604 In addition to university main library resources	2700		8 Journals		UIIT has an access to digital library services being extended by HEC	

CRITERION 4: STUDENT SUPPORT AND ADVISING

Our University organizes support programs for students and provide information regarding admission, scholarship schemes etc. Institute in its own capacity arranges orientation and guided tours of the institute. Director Students Affairs is also there and arranges various cultural activities and solves the students' problems. However currently there is no Parent/Teacher association.

Standard-4.1: Courses must be offered with sufficient frequency and number for students to complete the program in a timely manner.

Courses are taught as per HEC criteria.

- Elective courses are offered as per policy of HEC and the University.
- For postgraduate programs, a variety of courses are offered according to demand of the profession

Standard-4.2: Courses in the major area of study must be structured to ensure effective interaction between students, faculty and teaching assistants.

Both theoretical and practical aspects are focused to prepare the students for professional challenges. Theoretical problems are explained and assignments are given to the students whereas, practical are carried out in the labs. Courses are structured and decided by the board of studies meeting. At commencement of each semester, faculty members interact frequently among themselves and with students. Students are welcome to ask questions in class and even after the class. Emphasis is always given for an effective interaction between each section of MSCS class.

Standard-4.3: Guidance on how to complete the program must be available to all students and access to qualified advising must be available to make course decisions and career choices.

Several steps have been taken to provide guidance to students by different ways such as:

- Students are informed about the program requirement through the director's office.

- Through the personal communication of the teachers with the students.
 - Meetings are organized by the director of the institute for counseling for the students. In addition, students can also contact with the relevant teachers whenever they face any problem.
 - Students can meet director of the institute whenever they feel need to meet on any serious issue.
- Realizing the need for exploring job opportunities for the university graduates, Directorate of Placement Bureau has been established

Table 7: Student to Teacher Ratio at UIIT for MSCS

2011-12	2012-13	2013-14	2014-15	2015-16	2016-2018
1:11	1:11	1:12	1:12	1:14	1:14

CRITERION 5: PROCESS CONTROL

It includes students' admission, registration and faculty recruitment activities, which are dealt by various statutory bodies and the university administration.

Standard-5.1: The process by which students are admitted to the program must be based on quantitative and qualitative criteria and clearly documented. This process must be periodically evaluated to ensure that it is meeting its objectives.

- The process of admission is well established and is followed as per rules and criteria set by HEC. For this purpose an advertisement is published in the national news papers by the Registrar office.
- A person holding Intermediate Certificate, A-level or an equivalent certificate from any recognized Institute with at least second division or overall 45% marks, or any other marks specified shall be eligible to apply for admission.
- Admission will be on open merit basis

Standard-5.2: The process by which students are registered in the program and monitoring of students progress to ensure timely completion of the program must be documented. This process must be periodically evaluated to ensure that it is meeting its objectives.

- The student name, after completion of the admission process, is forwarded to the Registrar office for proper registration in the specific program and the registration number is issued to the student.
- Registration is done for one time for each degree but evaluation is done through the result of each semester. Only those students, who fulfill the criteria of the University, are promoted to the next semester.

Standard-5.3: The process of recruiting and retaining highly qualified faculty members must be in place and clearly documented. Also processes and procedures for faculty evaluation, promotion must be consistent with institution mission statement. These processes must be periodically evaluated to ensure that it is meeting with its objectives.

- The recruitment policy followed by the University is the same as recommended by the HEC. Induction of all posts is done as per rule.
- Vacancies and newly created positions are advertised in the national newspapers, applications are received by the Registrar's office, scrutinized by the scrutiny committee, and call letters are issued to the shortlisted candidates on the basis of experience, qualification, publications and other qualities/activities as determined by the University.
- The candidates are interviewed by the University Selection Board, and Principal and alternate candidates are selected.
- Selection of candidates is approved by the Syndicate for issuing orders to join within a specified period.
- Induction of new candidates depends upon the number of approved vacancies.
- The standard set by HEC are followed.
- At present, no procedure exists for retaining highly qualified faculty members. However, the revised pay scale structure is quite attractive.
- HEC also supports the appointment of highly qualified members as foreign faculty Professors, National Professors and deports them to the concerned institutes of the University.

Standard 5-4: The process and procedures used to ensure that teaching and delivery of course material to the students emphasizes active learning and that course learning outcomes are met. The process must be periodically evaluated to ensure that it is meeting its objectives.

- To provide high quality teaching, Institute periodically revises the curriculum in views of field requirements, innovations and new technology.
- With the emergence of new fields, new courses are introduced and included in the curriculum.
- Students usually buy cheap Asian editions of technology books. These are also available in the University library, where documentation, copying and internet facilities are available.
- Notes are also prepared by the teachers and given to the students.
- Most of the lectures are supplemented by overheads, slides and pictures.

- All efforts are made that the courses and knowledge imparted meet the objectives and outcome. The progress is regularly reviewed at the staff meetings.

Standard 5-5: The process that ensures that graduates have completed the requirements of the program must be based on standards, effective and clearly documented procedures. This process must be periodically evaluated to ensure that it is meeting its objectives.

The controller of examinations announces the date regarding commencement of examination. After each semester, the controller's office notifies results of the students. The evaluation procedure consists of quizzes, mid and final examinations, practical, assignments, reports, oral, technical presentations and comprehensive examination. For MSCS, the minimum pass marks for each course is 40%.

CRITERION 6: FACULTY

Standard 6-1: There must be enough full time faculty who are committed to the program to provide adequate coverage of the program areas/courses with continuity and stability. The interests and qualifications of all faculty members must be sufficient to teach all courses, plan, modify and update courses and curricula. All faculty members must have a level of competence that would normally be obtained through graduate work in the discipline. The majority of the faculty must hold a Ph.D. in the discipline.

Below is the detail of faculty members at UIIT for the MSCS program.

A. Full-time Faculty Information

Table 8: Full Time Faculty Members at UIIT for MSCS

Full-time Faculty Size	Number of faculty members with		Full Professors	Associate Professors	Assistant Professors	Lecturers	Teaching Assistants/Fellows
	PhD	MS					
18	7	11	00	00	09	09	

B. Part-time Faculty Information

Table 9: Part Time Faculty Members at UIIT for MSCS

Part-time Faculty Size	Number of Part-Time Faculty Members with		Total Number of Courses Offered by the Institute	Number of Courses Taught by Part-Time Faculty per Year	Average Teaching Load per Part-Time Faculty Member
	PhD	MS			
2	02	10	3	1:1	2

The university grants the degree as generic MS (Computer Science), however, later on the students are offered different streams of computer science. So there is no distribution of faculty in MSCS with respect to specialization.

Standard 6-2: All faculty members must remain current in the discipline and sufficient time must be provided for scholarly activities and professional development. Also, effective programs for faculty development must be in place. Effective Programs for Faculty Development

- The faculty members are sent to the training for the available resourced. Currently many faculty members are studying in Pakistan and abroad in PhD level studies.
- The institute provides them study leave with pay and some time allowance where possible for the institute.
- Internet is available to all the faculty members. The faculties also have access to the digital library and limited access to some well known journals.
- The institute provides support for attending conferences through HEC. There are certain policy matters which a faculty members need to follow in order to get a positive feedback from the institute for travel grants for the conference.
- The university provides a certain amount of innovative research ideas to the faculty members.

Standard 6-3: All faculty members should be motivated and have job satisfaction to excel in their profession.

The faculty members are not fully satisfied with the workload and the amount they get in the form of salary. Most of the faculty members are satisfied with the mix of research and teaching method. The faculty members are satisfied with the support they are getting from the administration regarding the research and teaching. The faculty members are satisfied with overall environment of the institute. Not all the faculty members are satisfied with the job security. the institution is utilizing their capabilities in the good way. The faculty should be encouraged to continue excelling through the career. A table of Results of faculty Survey is at next Page. (Table 10 Result of Faculty Survey)

Table 10: Result of Faculty Survey

S. No	Parameters	Dr. Mamoonah Humayoun	Dr. Saud Altaf	Mr. Nasir Mehmood Minhas	Dr. Yasir Hafeez	Dr. Saleem Iqbal	Mr. Saif ur Rehman

	knowledge						
15	What are the best programs / facts currently available in your department that enhance you motivation and job satisfaction	The MS Program Program	New Building, Latest Equipment	NIL	MS Program	NIL	NIL
16	Suggest programs/factors that could improve your motivation and job satisfaction?	It is better to offer new courses in the existing programs	Research Environment should be improved	NIL	Promotion of Research culture to give faculty a chance for improving research.	NIL	NIL

CRITERION 7: INSTITUTIONAL FACILITIES

According to this criterion, the institution must have the infrastructure to support new trends in learning such as e-learning including digital publications, journals etc.

- The library must possess an up-to-date technical collection relevant to the program and must be adequately staffed with professional personnel. Insufficient library's technical collection of books. Recommended books and relevant journals of the programs are not available to the students.
- These aspects need to be strengthened in number and space.
- Classrooms must be adequately equipped and offices must be adequate to enable faculty to carry out their responsibilities.
- The standard wise description of this criterion is given an under

Standard- 7.1: The institution must have the infrastructure to support new trends in learning such as e-learning.

The university faculty has access to e-library and internet which is very supportive of the faculty. But faculty facing certain problems like

- Repeatedly power failure during the labs
- Faculty don't have access to many well known journal those are relevant to the field.

Standard- 7.2: The library must possess an up-to-date technical collection relevant to the program and must be adequately staffed with professional personnel.

The University Central Library has very limited number of books, journals and periodicals. It's a small library in term of space and facilities with no catalogue systems. It does not meet the standards of a University Library. The institute has its own small library which has computer science related books. But this library also lacks the book related to the latest field and the field in which currently latest results are being conducted.

Standard- 7.3: classrooms must be adequately equipped and offices must be adequate to enable faculty to carry out their responsibilities.

- The office environment is not comfortable to work at all during the summer.
- Classrooms have a limited size white board which ends after writing for a few minutes.
- Because of the fans, teacher keeps on speaking and voice don't reach ahead of 2nd or 3rd row in summer, so something should be done to replace fans with air conditions.

CRITERION 8: INSTITUTIONAL SUPPORT

The university administration has been struggling hard to strengthen all the departments/institutes, upgrade them and establish new faculties and Institutes. The university is also trying to attract highly qualified faculty.

Standard 8-1: There must be sufficient support and financial resources to attract and retain high quality faculty and provide the means for them to maintain competence as teachers and scholars.

The institute currently has limited resources for the research. There should be enough research budgets that can attract the faculty member to do research in their fields. Along with the research grant, the institute should provide funding for the research projects independently.

Standard 8-2: There must be an adequate number of high quality graduate students, research assistants and Ph.D. students.

Below is the list of students in the MSCS program over past ten years. UIIT is not accredited for MS Degree. Teaching Assistant positions are not available for UIIT.

Table 11: Number of students enrolled in MSCS in last ten years

2008-10	2010-12	2012-14	2014-16	2016-2018
18	45	29	56	69

Standard- 8.3: Financial resources must be provided to acquire and maintain library holdings, laboratories and computing facilities.

Following is the detail of the institution's budget for maintenance, library holdings, laboratories, computing facilities and faculty development.

Table 12: Financial Information about the institution and the Program

Total assets of the institution	PMAS-AAUR is a public sector University and UIIT is a constituent part of the university -- it is relatively hard to determine the exact value of its assets.				
Total endowment fund of the institution					
	2013-14	2014-15	2015-16	2016-17	2017-18
Yearly budget for the past five years	54299318	62022461	71557530 (Estimated)	74037914	78952610

SUMMARY AND CONCLUSION

The Self Assessment Report (SAR) of the University Institute of Information Technology (UIIT), Pir Mehr Ali Shah Arid Agriculture University, Rawalpindi for Degree Program Master of Science in Computer Science (MSCS) provides an evaluation of the performance against out stated criteria. This report begins with an introduction of the institute followed by a detailed discussion of the MSCS degree program including its importance, the main features, objective, outcomes and measures to assess those objectives.

MSCS is a two years degree program, during which a variety of relevant computer science courses are offered to the students. To give the students industry exposure regarding latest happenings and because of the large number of offered courses, Industry experienced visiting faculty is also engaged to work in collaboration with the full-time faculty members. In order to maintain and promote an outstanding quality of education, a continued assessment of the teaching and courses is conducted, throughout a semester, in accordance with the rules and regulations of the HEC.

The core of the curriculum designed for MSCS program is according to the market and international standards of computer education guided by the requirements set by the Higher Education Commission of Pakistan. The curriculum includes an adequate proportion of core and specialized courses. Moreover, the faculty members and students are encouraged to arrange workshops and seminars as a part of their academic and practical work to further enhance their professional abilities.

UIIT supports the new trends towards education such as e-learning including digital publications, journals, etc. The faculty and students have been provided with a full-time access to the e-library and internet through local area network, so that they have a ready access to many well known journals relevant to their respective research areas. In addition, a book library is also available but lacks the latest editions of books related to multiple important subjects.

The performance of UIIT can be improved in general and particularly in MSCS Degree program by improving following points:

1. The job satisfaction level of faculty members should be increased as according to the market trend.
2. Sufficient funding is required for the research projects for the development and betterment of the students.
3. There should be seminars on the latest research trends which help students to choose their field and also to decide the field of specialization for further studies.
4. Student internship program should be organized for the professional grooming and stipend should be given to them like other universities are practicing.
5. The workload should be reduced for the faculty according to the standard practice among other leading universities of Pakistan.
6. For the smooth flow of lectures, power supply for labs, class rooms and lecture theaters should be non-stop.
7. Concept of research associates needs to be reintroduced while at the same time, teaching assistants need to be inducted among the students to facilitate teachers and sharpen their own skills.
8. The trend of seminars and workshops, by the people of industry related to latest technologies currently active in the market, should be stimulated.

ANNEXURES

ANNEXURE I: ALUMNI SURVEY

The results of Alumni survey in table form are given below

Sr. No.	Category			Excellent	Very Good	Good	Fair	Poor
I	Knowledge	1	Math, Science, Humanities and professional discipline, (if applicable)	40%	33%	22%	5%	0%
		2	Problem formulation and solving skills	35%	38%	20%	6%	1%
		3	Collecting and analyzing appropriate data	37%	13%	25%	17%	8%
		4	Ability to link theory to practice	35%	30%	20%	9%	6%
		5	Ability to design a system component or process	32%	31%	15%	10%	12%
		6	IT knowledge	45%	17%	18%	15%	5%

II	Communication Skills	1	Oral communication	40%	42%	10%	5%	3%
		2	Report writing	40%	19%	33%	6%	2%
		3	Presentation skills	38%	21%	22%	7%	12%
III	Interpersonal Skills	1	Ability to work in teams.	40%	25%	19%	9%	7%
		2	Ability to work in arduous/Challenging situation	32%	26%	18%	18%	6%
		3	Independent thinking	32%	21%	27%	16%	4%
		4	Appreciation of ethical Values	50%	24%	16%	8%	2%
IV	Management/Leadership Skills	1	Resource and Time management skills	33%	42%	16%	7%	2%
		2	Judgment	58%	23%	3%	8%	8%
		3	Discipline	40%	21%	17%	16%	6%
V	Department Status	1	Infrastructure	42%	32%	16%	4%	6%
		2	Faculty	47%	26%	21%	5%	1%
		3	Repute at national level	43%	30%	20%	3%	4%
		4	Repute at International level	47%	26%	19%	5%	3%

ANNEXURE II: GRADUATING STUDENTS SURVEY

The results of Graduating Student Survey in table form are given below:

1	The work in the program is too heavy and induces a lot of pressure.	36%	30%	24%	6%	3%
2	The program is effective in enhancing team-work abilities.	45%	24%	18%	3%	9%
3	The program administration is effective in supportive learning	25%	31%	25%	13%	6%
4	The program is effective in developing analytical and problem solving skills.	33%	43%	13%	7%	3%
5	The program is effective in developing independent thinking.	39%	29%	10%	16%	6%
6	The program is effective in developing written communication skills.	26%	41%	15%	9%	9%
7	The program is effective in developing planning abilities.	42%	19%	22%	6%	11%
8	The objectives of the program have been fully achieved.	50%	32%	9%	3%	6%
9	Whether the contents of curriculum are advanced and meet program objectives.	43%	31%	10%	14%	2%
10	Faculty was able to meet the program objectives.	65%	23%	3%	6%	3%
11	Environment was conducive for learning	38%	47%	3%	3%	9%
12	Whether the infrastructure of the department was good	52%	21%	9%	12%	6%
13	Whether the program was comprised of Co-curricular and extra-curricular activities	34%	31%	16%	9%	9%
14	Whether scholarships/grants were available to students in case of hardship.	51%	34%	6%	6%	3%

ANNEXURE III: EMPLOYER SURVEY

The results of Employer Survey in tabular form are given below

		Excellent	Very Good	Good	Fair	Poor
I	Knowledge					
1	Math, Science, Humanities and professional discipline, (if applicable)	47%	31%	19%	3%	0%
2	Problem formulation and solving skills	41%	28%	17%	7%	7%
3	Collecting and analyzing appropriate data	47%	28%	3%	19%	3%
4	Ability to link theory to practice	39%	29%	13%	13%	6%
5	Ability to design a system component or process	50%	25%	13%	0%	13%
6	Computer knowledge	68%	14%	9%	5%	5%
II	Communication Skills					
1	Oral communication	42%	26%	16%	10%	6%
2	Report writing	35%	35%	24%	6%	0%
3	Presentation skills	45%	23%	9%	18%	5%
III	Interpersonal Skills

Faculty Resume

Name	Dr. Saleem Iqbal
Personal	Assistant Professor University Institute of Information Technology PMAS – Arid Agriculture University Rawalpindi, Pakistan Mobile: +92-333-6905241
Experience	Assistant Professor (Computer Science) Jan 2012 - To Date PMAS-AAUR (University Institute of Information Technology), Rawalpindi Assistant Director (Information Technology) Oct 2007 - Jun 2012 Cabinet Division, Islamabad Lecturer (Computer Science) 2003 - 2007 COMSATS, Islamabad
Honor and Awards	• Certificate of Excellence “ PhD Thesis” • Merit thesis Award “ For PhD thesis” • International Doctoral Fellowship “ One year” • Appreciation for participation in 1st Pak Knowledge Festival
Memberships	▪ Pervasive Computing Research Group, UTM, Malaysia Member ▪ Computer Science Teachers Association Individual Membership (CSTA Membership # 5166258) ▪ International Association of Engineers Individual Membership (IAENG membership # 100345) ▪ International Association of Computer Science and Information Technology Membership for collaborative interdisciplinary research ▪ National Testing Service Contributor for MCQs in Question Bank of NTS
Brief Statement of Research Interest	• Computer Communication & Networks • Network Security and Simulations

ANNEXURE V: Faculty Course Review Report

Performa 2

Faculty Course Review Report

(To be filed by each teacher at the time of Course Completion)

For completion by the course instructor and transmission to Head of Department of his/her nominee (Dept. Quality Officer) together with copies of the Course Syllabus outline

Department:	Computer Science		Faculty:	University Institute of Information Technology	
Course Code	CS-739	Title:	Software Quality Assurance		
Session:	2014	Semester:	Fall		
Credit Value:	3(3-0)	Level:	PhD	Prerequisites:	
Name Of Course Instructor:	Dr. Yaser Hafeez	No. of Students Contact Hours	Labs (N/A)		
Assessment Methods: Give precise details (no & length of assignments, exams weightings, etc.)	Quizzes, Assignment, Mid Term, Final term 6 Quizez, 6 Assignment 1 mid, 1 final				

Distribution of Grade/ Marks and other Outcomes (adopt the grading system as required)

Undergraduate	Originally	%Grade A	%Grade B	%Grade C	D	F	No Grade	Withdrawal	Total
No Of Students									

Post Graduate	Originally Registered	%Grade A	%Grade B	%Grade C	D	F	No Grade	Withdrawal	Total
No. of Students	12	17	83	0	0	0			

Overview /Evaluation (Course Co-Coordinator's Comments)

Feedback: first Summarize, then comment feedback received form:

(These boxes will expand as you type in your answer.)

1) Student (Course Evaluation) Questionnaires

2) External Examiners or Moderators (if any)

3) Student/Staff Consultative Committee (SSCC) or equivalent, (if any)

4) Curriculum: comments on the continuing appropriateness of the Course curriculum in relation to the intended learning outcomes (course objectives) and its compliance with the HEC Approved/Revised National Curriculum Guidelines.
The course curriculum is in accordance with HEC approved guidelines

5) Assessment: comment on the continuing effectiveness of method(s) of assessment in relation to the intended learning outcomes (Course Objectives)

6) Enhancement: comment on the implementation of changes proposed in earlier Faculty Course Review Reports

- 7) Outline any changes in the future delivery or structure of the Course that this semester/term's experience may prompt.
